Daytime Contact Number/s:

Property Address where service is to be installed:

PARTICIPATION IN THE SERVICE [must tick box to participate]

Yes, I would like to participate in the co-ordinated Direct to Home [DTH] Satellite Television Service Scheme and agree to pay the \$1280 for a 85cm roof mounted satellite dish.

IMPORTANT INFORMATION ON THE DTH SERVICE

- For properties outside the DTH Satellite Service licensed area [all areas of the region excluding the Boyne Valley], the provision of the service is subject to Federal Government and commercial television stations approval.
- The price quoted for Council to co-ordinate installing the service is for the supply and installation of a "standard service". Non-standard installations will require individual quotations on a case by case basis.
- The installer or their agent/s will attend to service calls from householders in response to any problems with the equipment for a period of 1 month from date of installation. Equipment has a 12-month warranty from date of completed installation on materials and labour in the event of poor workmanship or defective equipment.
- The DTH satellite service equipment is the property of the purchaser and therefore the responsibility for all ownership aspects of the service [such as insurance coverage, ongoing repairs, maintenance, operational costs outside the warranty period] rest with the property owner.

PAYMENT OPTIONS [select one]

- I will pay the full cost of the service following installation
- I would like to access the Council payment scheme which involves the payment of one third of costs after installation and the balance, plus interest at the rate of 8% per annum, paid off over the next two financial years as a special levy on my property rate notice. Only the registered property owner/s can access this option.
