Disused Underground Tanks

Indicate how the underground tanks are to be taken out of commission:

- Removal of the tank and all associated pipework to an approved place
- Filling of the whole tank with an inert solid material such as sand, concrete or approved material, and the disconnection of all pipes from the tank

Note: Disused underground tanks MUST be treated in one of the above methods. The licence cannot be surrendered until the tanks have been treated in an approved manner.

Date of Surrender:

Date: / /

Contaminated Land

For a site where flammable and combustible liquids have been stored in tanks, the site should/would have been notified to the Environmental Protection Agency as required under the *Environmental Protection Act 1994*. For information regarding the contaminated land status of the site, contact the Environmental Protection Agency's Contaminated Land Unit.

Attach

Attachments:

1. The current licence must be submitted with this form.
2. A certificate of decommissioning of the tanks must be submitted with this form (if applicable).

Please note: This application MUST be lodged with your Council.
